www.pcftraining.com

FEATURES Patented Stay Fluff® construction provides the most luxurious comfort while minimizing feather shifting. Less chance of shifting makes this feather bed easier to fluff saving housekeeping labor costs. Feather beds provide support to the spinal column and relieve stress on pressure points, like shoulders and hips.

Hyperclean® feathers are produced using our unique cleaning method which removes dust, dirt and allergens. Barrier Weave® fabrics use a tighter weave and special finish so the feathers won't sneak out. AllerRest Fabric® is specially woven to prevent dust and harmful allergens from penetrating into your bedding. AllerRest Fabric® is proven to block dust mites.

All Pacific Coast® products carry the seal of the ADFC.

Item	Size	Pre-filled Dimensions	Fill Weight	Case/ Pack	Shipping Carton	Carton Weight (Lbs)
44310	Full XL	54" x 80"	11 lbs	1	22" x 17.5" x 12.5"	14.76
